Experience

Universität zu Lübeck · Research Staff
April 2023 - Present

· Contributed 'BuntesLübeck' to the VernetzBar App, introducing an innovative game concept where players compete by digitally painting Lübeck in their team's color.

· Managed and contributed to the administration and development of 'SaLü Home,' the Moodle instance for the university's Schülerakademie.

never final · Web Developer
October 2021 - March 2023

· Contributed to Reportic's development, innovating web analytics by visually displaying visitors' flows as graphs for comprehensive user interaction insights.

· Collaborated on the development of 'Buzzword Bingo,' a dynamic conference game for Beiersdorf.

· Developed the company's landing page, ensuring a meticulously crafted and responsive user experience (Nuxt, StrapiCMS).

· Contributed to reportic's landing page using WebFlow.

Universität zu Lübeck · Research Assistant
April 2019 - March 2023

· Responsible for designing and implementing the initiative's website using Typo3 and VueJS, focusing on functionality and a user-friendly interface.

· Executed the design and implementation of the tech.festival website, utilizing Astro and seamlessly integrating Moodle API for online sign-ups.

· Planned and conducted various workshops for students, covering subjects such as web development, 3D modeling, and machine learning.

· Facilitated 3D modeling workshops for educators.
